Plan issue date: January 12, 2023

Third Party Administrative Services provided by Aetna Life Insurance Company

# Schedule of benefits

This schedule of benefits (schedule) lists the **copayments** or **payment percentage**, if any apply to the **covered services** you receive under the plan. You should review this schedule to become aware of these and any limits that apply to these services.

# How your cost share works

- The **copayments**, if any, listed in the schedule below are the amounts that you pay for **covered services**.
  - For pharmacy benefits where a percentage cost share acts like a copayment, you will be responsible for the percentage amount
- Payment percentage amounts, if any, listed in the schedule below are what the plan will pay for covered services.
- Sometimes your cost share shows a combination of your dollar amount **copayment** that you will be responsible for and the **payment percentage** that your plan will pay.
- You are responsible to pay any **deductibles**, **copayments** and remaining **payment percentage**, if they apply and before the plan will pay for any **covered services**.
- This plan doesn't cover every health care service. You pay the full amount of any health care service you get that is not a **covered service**.
- This plan has limits for some covered services.
- Your cost share may vary if the **covered service** is preventive or not. Ask your **physician** or contact us if you have a question about what your cost share will be.

For examples of how cost share work, go to the *Using your Aetna benefits* section under Individuals & Families at <a href="https://www.aetna.com/">https://www.aetna.com/</a>

Under this plan, you will:

- 1. Pay your copayment
- 2. Then pay your payment percentage

#### Plan features

# Outpatient prescription drug maximum out-of-pocket limit

Individual	\$4,000 per year
Family	\$8,000 per year

# **General coverage provisions**

This section explains the maximum out-of-pocket limit and limitations listed in this schedule.

# Cost share waiver for risk reducing breast cancer prescription drugs

The **prescription** drug **deductible** and per **prescription** cost share will not apply to risk reducing breast cancer **prescription** drugs when obtained at a network pharmacy. This means they will be paid at 100%.

# Cost share waiver for contraceptives (birth control)

The **prescription** drug **deductible** and per **prescription** cost share will not apply to female contraceptive methods when obtained at a network pharmacy. This means they will be paid at 100%. This includes certain OTC and generic contraceptive **prescription** drugs and devices for each of the methods identified by the FDA. If a **generic prescription drug** is not available, the **brand-name prescription drug** for that method will be paid at 100%.

The **prescription** drug **deductible** and cost share will apply to **prescription** drugs that have a generic equivalent or alternative available within the same therapeutic drug class obtained at a network pharmacy unless we approve a medical exception. A therapeutic drug class is a group of drugs or medications that have a similar or identical mode of action or are used for the treatment of the same or similar disease or injury.

#### Cost share waiver for tobacco cessation prescription and OTC drugs

The **prescription** drug **deductible** and the per **prescription** cost share will not apply to the first two 90-day treatment programs for tobacco cessation **prescription** and OTC drugs when obtained at a network **retail pharmacy**. This means they will be paid at 100%. Your per **prescription** cost share will apply after those two programs have been exhausted.

#### Copayment

This is the dollar amount you pay for **covered services**. In **prescription** drug plans, it is the amount you pay for covered drugs.

### Your financial responsibility and decisions regarding benefits

We base your financial responsibility for the cost of **covered services** on when the service or supply is provided, not when payment is made. Benefits will be pro-rated to account for treatment or portions of **stays** that occur in more than one year. Decisions regarding when benefits are covered are subject to the terms and conditions of the booklet.

### Outpatient prescription drug maximum out-of-pocket limit provisions

**Covered services** that are subject to the **maximum out-of-pocket limit** include **covered services** provided under the medical plan and the **prescription** drug plan.

The maximum out-of-pocket limit is the most you will pay per year in copayments, payment percentage and deductible, if any, for covered services. This plan may have an individual and family maximum out-of-pocket limit.

For purposes of the following **maximum out-of-pocket limit** provisions:

- The individual **maximum out-of-pocket limit** applies to a person enrolled for self-only coverage with no dependent coverage
- The family **maximum out-of-pocket limit** applies to a person enrolled with one or more dependents
- The family **maximum out-of-pocket limit** is met by a combination of family members or by any single individual within the family

#### Individual prescription drug maximum out-of-pocket limit

Once the amount of the cost share you have paid during the year for **covered services** meets the individual **maximum out-of-pocket limit**, this plan will pay 100% of the eligible charge for **covered services** that apply toward the limit for you for the remainder of the year.

#### Family prescription drug maximum out-of-pocket limit

After the amount of the cost share you and your covered dependent pay for **covered services** during the year meets the family **maximum out-of-pocket limit**, this plan will pay 100% of the eligible charges for **covered services** that apply toward the limit for the rest of the year for all covered family members.

This plan has an individual and family prescription drug maximum out-of-pocket limit

To satisfy this family **maximum out-of-pocket limit** for the rest of the year, the following must happen:

The family maximum out-of-pocket limit is a cumulative maximum out-of-pocket limit for all family
members. The family prescription drug maximum out-of-pocket limit is met by a combination of family
members with no single person in the family contributing more than the individual maximum out-ofpocket limit in a year.

When this happens, the individual maximum out-of-pocket limit is also met for the rest of the year.

The maximum out-of-pocket limit may not apply to certain covered services. If the maximum out-of-pocket limit does not apply to a covered service, your cost share for that service will not count toward satisfying the maximum out-of-pocket limit.

Certain costs that you have do not apply toward the maximum out-of-pocket limit. These include:

• All costs for non-covered services
