Managing Health Care Costs

Timely Tip:

Walking helps you mentally regroup and gets your blood pumping.

Aside from the cost of proper gear, it is free! Now that warmer weather is on the horizon, get started with a new [walking plan](#).

Take meaningful steps to manage out-of-pocket health care costs without risking your health. Reducing quality of care may cost more in the long run. Consider these tips and visit our Benefits Online website (go to the Staff Portal) for benefit details.

Choose an affordable health plan that addresses your unique needs.

If you are eligible to choose a health plan, pick one that meets your budget and health needs. To reduce overall spending, it helps to know what your plan does and doesn't cover.

Stay in-network.

Your SEHBP Horizon plan partners with select [Direct Primary Care](#) (DPC) doctors so you can access unlimited care with no copays. Overall, visiting in-network providers can lower your cost of care; search the Horizon network at [horizonblue.com](#).

Plan and budget your care.

Think about your potential upcoming health care costs, review your benefits, and budget accordingly. Get to know your options for care at [horizonblue.com](#).

Ask questions.

Don't be afraid to ask your doctor questions. If you require care, ask if there

are procedures or services that are more affordable and equally effective.

Use virtual health options.

Telemedicine visits can be helpful when managing chronic conditions, speaking with a mental health professional, or receiving diagnoses for minor ailments. Doctors are board certified and licensed plus you can save on time and travel; learn more at [Horizon CareOnline](#).

Take generic drugs.

Copays for generic drugs are typically lower. Although they may look or taste different, generic drug ingredients are exact copies of brand-name drugs and must meet the same stringent FDA standards. When you need a prescription, ask if a generic equivalent is available. Visit [fda.gov](#) for details.

Medicaid & CHIP Annual Notice

If you live in New Jersey, you/your dependents may be eligible for health coverage assistance from Medicaid or CHIP for health coverage. See the attached notice for details.

Health Insurance Terms Refresher

This month we present more common health care terms you should know:

In-Network: Typically refers to physicians, hospitals, or other health care providers who contract with an insurance plan to provide services to its members. Coverage for services received from in-network providers will typically be greater than for services received from out-of-network providers, depending on the plan.

Out-of-network: Typically refers to physicians, hospitals, or other health care providers who do not contract with an insurance plan to provide services to its members. Depending on the insurance plan, expenses incurred for services provided by out-of-network providers might not be covered, or coverage may be less than for in-network providers.

Reasonable and Customary Charges: The commonly charged or prevailing fees for health services within a geographic area. If charges are higher than what a carrier considers reasonable and customary, the carrier will not pay the full amount and instead will pay what is deemed appropriate for the particular service. The remaining charges are the responsibility of the patient.

Premium Assistance Under Medicaid and the Children’s Health Insurance Program (CHIP)

If you or your children are eligible for Medicaid or CHIP and you’re eligible for health coverage from your employer, your state may have a premium assistance program that can help pay for coverage, using funds from their Medicaid or CHIP programs. If you or your children aren’t eligible for Medicaid or CHIP, you won’t be eligible for these premium assistance programs but you may be able to buy individual insurance coverage through the Health Insurance Marketplace. For more information, visit www.healthcare.gov.

If you or your dependents are already enrolled in Medicaid or CHIP and you live in a State listed below, contact your State Medicaid or CHIP office to find out if premium assistance is available.

If you or your dependents are NOT currently enrolled in Medicaid or CHIP, and you think you or any of your dependents might be eligible for either of these programs, contact your State Medicaid or CHIP office or dial **1-877-KIDS NOW** or www.insurekidsnow.gov to find out how to apply. If you qualify, ask your state if it has a program that might help you pay the premiums for an employer-sponsored plan.

If you or your dependents are eligible for premium assistance under Medicaid or CHIP, as well as eligible under your employer plan, your employer must allow you to enroll in your employer plan if you aren’t already enrolled. This is called a “special enrollment” opportunity, and **you must request coverage within 60 days of being determined eligible for premium assistance**. If you have questions about enrolling in your employer plan, contact the Department of Labor at www.askebsa.dol.gov or call **1-866-444-EBSA (3272)**.

If you live in one of the following states, you may be eligible for assistance paying your employer health plan premiums. The following list of states is current as of January 31, 2022. Contact your State for more information on eligibility –
