

June 2026

Dear South Brunswick Family,

It has truly been a pleasure and privilege for our team to care for you over the past 3.5 years at Partnership Health Centers. While we are saddened that we will not be continuing our services in South Brunswick beyond the end of June, we are incredibly grateful for the relationships we have built and the trust you placed in us throughout your healthcare journey.

Serving this community has been both meaningful and rewarding, and we sincerely appreciate the kindness, resilience, and support you have shown our team during our time together.

A new healthcare provider will be occupying the location following our departure. For additional information regarding the transition, please contact the South Brunswick School District Administration directly.

To help support continuity of care, the following pages include a list of covered primary care providers that may serve as additional options for you and your family.

Thank you again for allowing us to be part of your healthcare journey. It has been an honor to serve you, and we wish you continued health and wellness in the years ahead.

Sincerely,

Dr. Sung Chae, SBPHC Medical Director  
and Your South Brunswick Partnership Health Center Care Team

## **PHC Service Termination Dates**

For your planning purposes, below are the tentative final dates for services at PHCSB.

If you have any questions regarding PHC services or obtaining your health records, please contact us at 848-279-3001.
